Work Experience:

Deloitte — *Analyst* | May 2021 - Present

- Served as an Integration Developer for TMT clients, successfully delivering multiple go-lives.
- Supported three parallel release end-to-end processes, including design, analysis, development, and hypercare support.
- Steered debugging initiatives for complex integration challenges and drove enhancements for ongoing software optimization.
- Initiated and led Proof of Concepts (POCs) for a comprehensive redesign of the client's cloud development architecture, showcasing innovation in driving transformative solutions.
- Led object design/development, unit testing, and facilitated functional/technical discussions.
- Managed cloud-to-on-prem migration, optimizing business processes through SAP BRIM integrations.
- Resolved testing and UAT defects, implemented architecture and security diagrams for complex integrations.
- Developed custom Java OAuth code to meet client requirements.
- Contributed to Deloitte firm initiatives related to SAP Integrations/SAP API management.
- Co-authored the SAP API Management Handbook for Deloitte KX.

Skills:

- **Integration:** SAP PI, CPI, CPI-DS, REST APIs, SOAP APIs, OData APIs, File/Email APIs, Java, Groovy Script, JavaScript

- **Cloud:** Azure, AWS, SAP
- **Programming/Languages:** Java, JavaScript, C/C++, Python, SQL, HTML/CSS, Bash, ABAP
- **Frameworks/Libraries:** React, Node.js, JQuery, Bootstrap, Express, Electron, Socket.io, d3.js, p5.js
- **Tools:** Git, Postman, Microsoft Office

Certifications:

[Microsoft Certified: Azure Fundamentals \(2024\)](#)

Languages:

- **English:** Advanced
- **Japanese:** Beginner - JLPT N5
- **Hindi:** Native

Projects:

- **MLC:** Developed a compiler for the hybrid typed programming language MLC using C.
- **Chat.io:** Created a versatile chat application supporting Text/Video/Audio conversations.
